S-100 SERIES DOORS

LUXURIOUS, AFFORDABLE ENTRANCE DOORS

Spitfire S-100 Series Doors are extremely secure, with Passive House level thermal values. By combining world class engineering and design, and utilising the highest quality, perfectly suited steel and aluminium, our bespoke doors can be manufactured to sizes much wider and higher than a composite door.

Steel raised Décor creates a 3D effect in a choice of Black or Inox, and is replicated internally and externally.

ULTRA LOW U-VALUES

S-100 solid door models exceed Passive House standards with an incredibly low U-Value of just 0.77 W/m²K. Glazed doors are 0.88 W/m²K.

COLOURS

Choose from 18 luxury "Solar Shield" finishes. Dual colours also available.

DOOR SIZES

S-100 single doors can be manufactured in sizes up to 1208mm wide and 2476mm high.

GLASS

Triple glazing is provided in all glazed designs, including toplights and sidelights.

RC2 & PAS 24 SECURITY AS STANDARD

For peace of mind, S-100 front doors conform to RC2 and PAS24 security.

WEATHER TEST RESULTS

Air Permeability	Class 4
Wind Load	Class 4
Deflection	Class C
Watertight	Class 3

Note:

Minimum door width 778mm. Maximum door width 1208mm. Sizes are available in 10mm increments e.g. 788mm, 798mm, 808mm. Minimum door height 1806mm. Maximum door height 2476mm. Sizes are available in 10mm increments e.g. 1816mm, 1826mm, 1836mm

*S1 design features black glass externally and a slim steel trim internally.

S-100 entrance doors combine the security and stability of a thermally enhanced steel door leaf and the reliability of an aluminium frame. All steel and aluminium materials are wrapped in Renolit Exofol, a high-performance surface treatment, which has Solar Shield Technology embedded.

Renolit reflects infrared radiation, substantially reducing the build-up of heat in the doors exterior, so your door will retain its geometry and exact fit. You are free to choose from 18 Renolit finishes and we can manufacture dual colour doors (internal/external).

18 Renolit Finishes

*The Natural Oak grain can be vertical or horizontal on the door slab, but vertical only on the frame.

As Standard

- Aluminium Outerframe
- 64mm deep door sash with high security steel skin, 65mm deep frame
- RC2 and PAS 24 Security
- 0.77 W/m²K U Value on Solid Designs. 0.88 W/m²K on Glazed Designs
- Multi-point lock with two hooks, two horizontal bolts, one deadbolt and a latch
- 3D adjustable three pin hinges. Available in Black or Steel
- Lever handle internally in Black or Steel
- Round or Square pullbar externally in Black or Steel
- Maximum single door size 1208mm x 2476mm
